

Woodgrow Horticulture Ltd

3rd ⓘ

View live video direct to your mobile phone or on the internet via a private website.

View your family, possessions, or anything the camera is watching.

View what matters when it matters.

3rd-i cameras can also detect when an intruder has entered your home using infrared and motion sensors.

When an alarm is triggered on your camera the 3rd-i control centre sends you an alert. You can then look at a recording of the event that set the camera off or see what's happening now.

Self management of your system using your phone and/or internet based interface.

Key benefits to end user

- The camera can be viewed from anywhere in the world where there is mobile coverage.
- The camera is wireless and is quick to self install.
- Images are date and time stamped.
- The 3rd-i camera is totally mobile. Protect your home, then move it to protect your boat.
- One phone can view multiple cameras.
- The 3rd-i system is more cost effective than current CCTV solutions.
- Access to you camera is protected by your PIN Number.
- Live video streaming directly to your mobile handset.
- Watch what matters when it matters
- Totally secure. Only authorised handsets permitted.
- Camera can be armed. PIR & motion detection – when activated the camera will call you..
- Store video images for 30 days.
- Camera is a plug-and-play device with battery backup
- Uses GSM 900/1800 networks which makes it portable.
- Triband GPRS Camera with SIM

As approved distributors of the **3rd-i** Security Camera System, we have now received stocks of the latest model.

As before, live images can be viewed on directly from your mobile phone. However, the new camera has three significant improvements over the previous model:

- Now suitable for outdoor installation.
- Images can be viewed on the internet via a private website.
- Camera is now fitted with a PIR activated LED lamp to improve low-light operation and to act as a deterrent.
